IDENTIFYING PRODUCT ATTACHMENTS

CITY SAFETY CAMERA CLIP

Connection attachment for the city safety (low-speed front-end collision avoidance) technology camera.

DEFOGGING SENSOR

Detects moisture on the inside of the windshield and automatically adjusts the climate control to reduce the fogging effect. ...
A rear view mirror that senses light and automatically dims.

LANE DEPARTURE SPACE/ CLIP/ WIRING

Attachment to connect lane departure warning system mechanism designed to warn a driver when the vehicle begins to move out of its lane

MIRROR BRACKET ATTACHED

Clip attachment for the rear-view mirror to be mounted on the glass.

RAIN SENSOR ATTACHED

Attached rain sensor base where the electronic part of the rain sensor gets attached to.

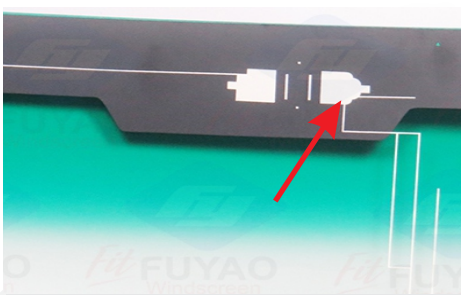

RAIN SENSOR CLIP ATTACHED

Attached clip where rain sensor base and the electronic part of the rain sensor mounts onto

HEATING WIRE /PLUG

Connection attachment for the demister(heater wires) system that clears condensation and thaw frost from the windshield, back glass of a motor vehicle.

ANTENNA WIRE

"On-Glass" antenna attached, whereby the glass actually becomes an integral part of the antenna system, and this special type of antenna (called a half wave dipole) does not depend upon metal under it to "complete the circuit". Used for either the radio, alarm system, GPS Navigation system and or built in "hands free" cellular phone system.

TYPES OF MOULDING

TOP MOULDING

Top rubber attached to the glass

SIDE MOULDING

Side rubber attached to the glass

BOTTOM MOULDING

Bottom rubber attached to the glass

3/4 MOULDING

3 of the 4 sides-
Rubber attached to the glass

4/4 MOULDING

4 of the 4 sides-
Rubber attached to the glass
